I AM GREATER

THE CAMPAIGN

‘I am Greater’ is Greater Manchester Violence Reduction Unit's flagship campaign designed to spotlight positive alternatives to violence for young people aged 14-25.

This new phase of the campaign, delivered in partnership with the Home Office, celebrates the people and organisations working within communities across Greater Manchester to support young people at a pivotal point in their lives. Every day, they create spaces where young people can discover new interests, build relationships, develop confidence and see different possibilities for their future.

At the heart of the campaign are young people themselves. Co-created with more than 100 young people from across Greater Manchester, alongside youth organisations from all 10 boroughs, the campaign allowed them to shape the story and show what these spaces and experiences mean to them.

Thank you in advance for supporting the campaign and helping get more young people aware of these opportunities.
